

myABCKit Exercises

Kids start with basic literacy and move on to various other areas of knowledge: reading comprehension, vocabulary and grammar.

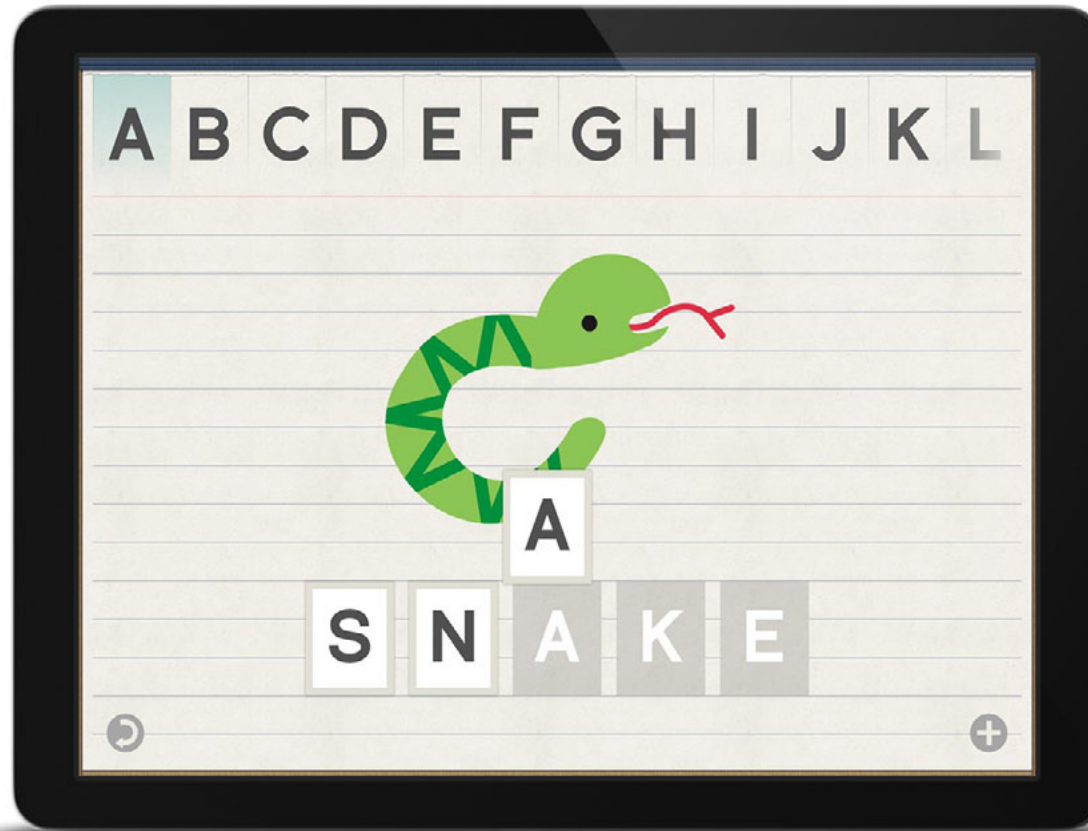

Know

Kids will identify the phonetic sound of each letter and associate it with a familiar object.

Find

The kid will identify and group specific phonemes by looking at pictures and listening to the associated words.

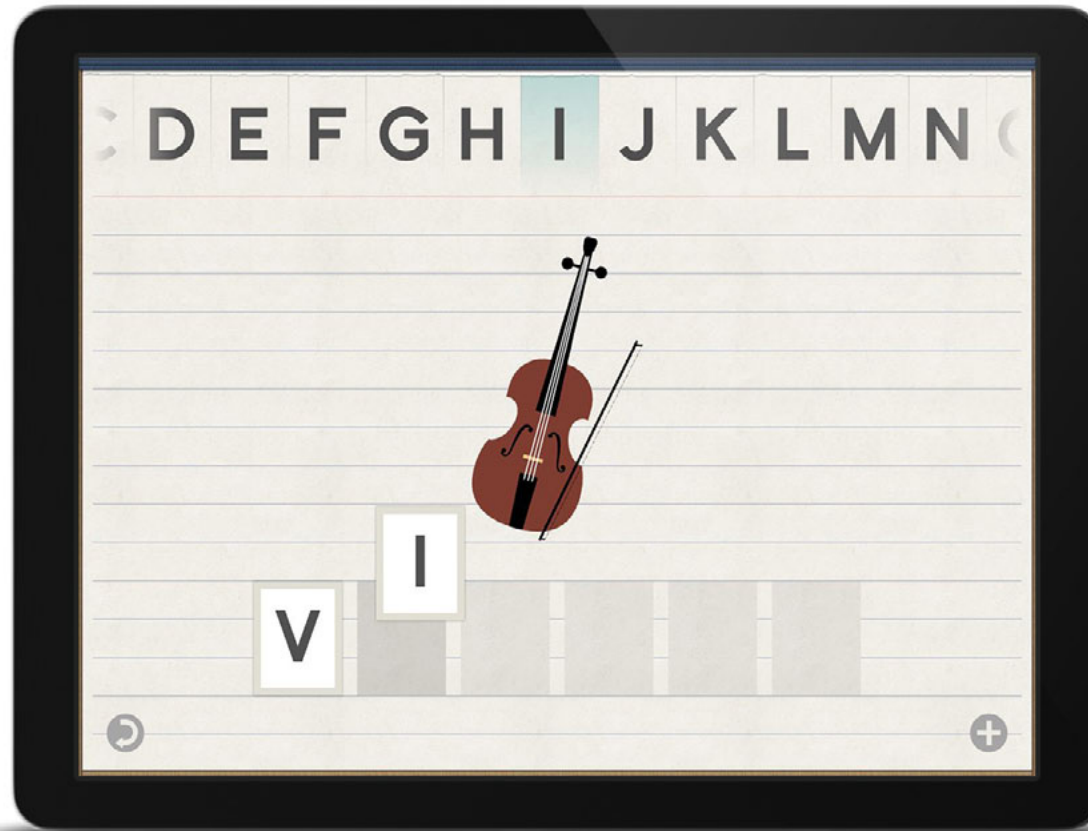

Match

Listen to phonemes and match them to their corresponding letter to form words.

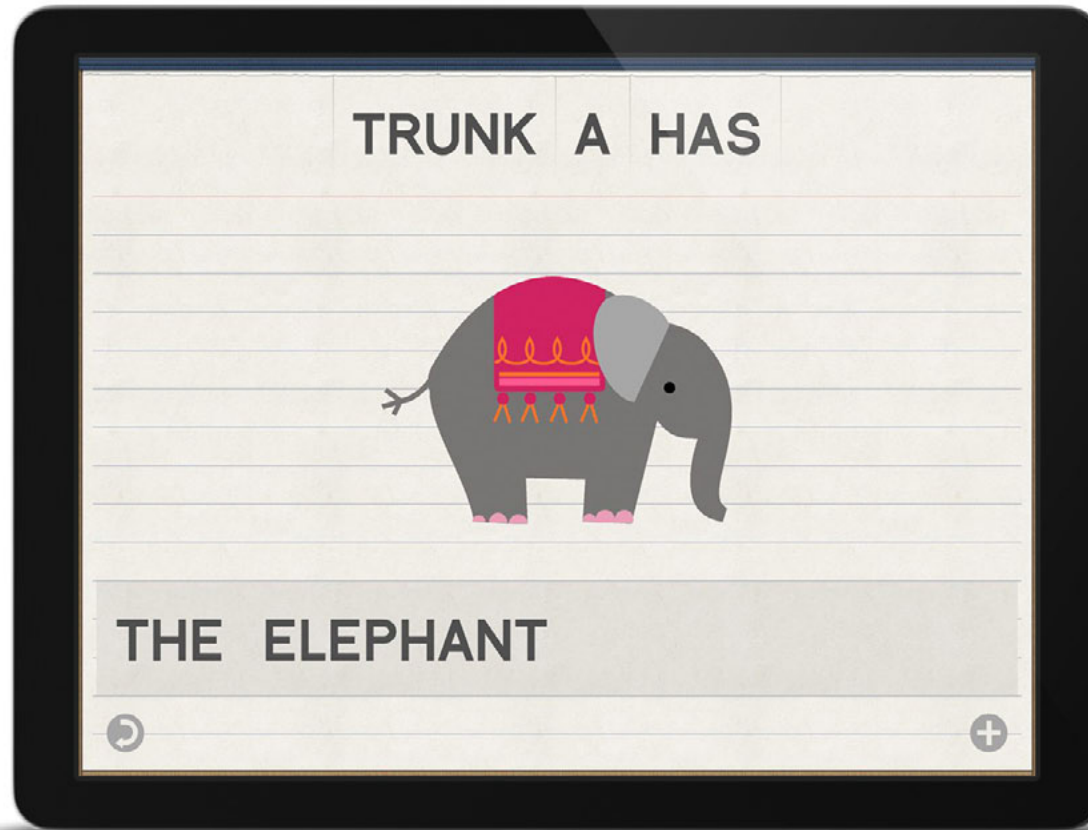

Complete

Helps kids to work on the letters that are more difficult for them while reinforcing their phonetic sound.

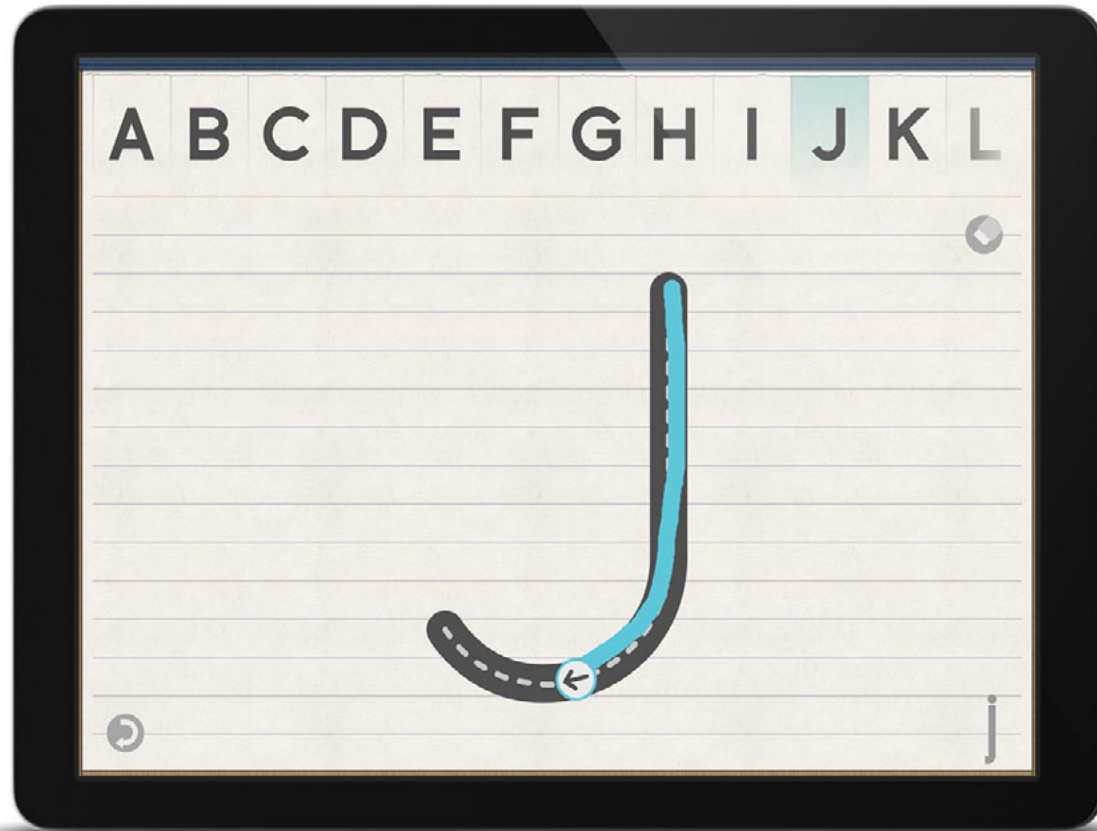

Sort

In this exercise kids can compose words just by listening to the name of a picture.

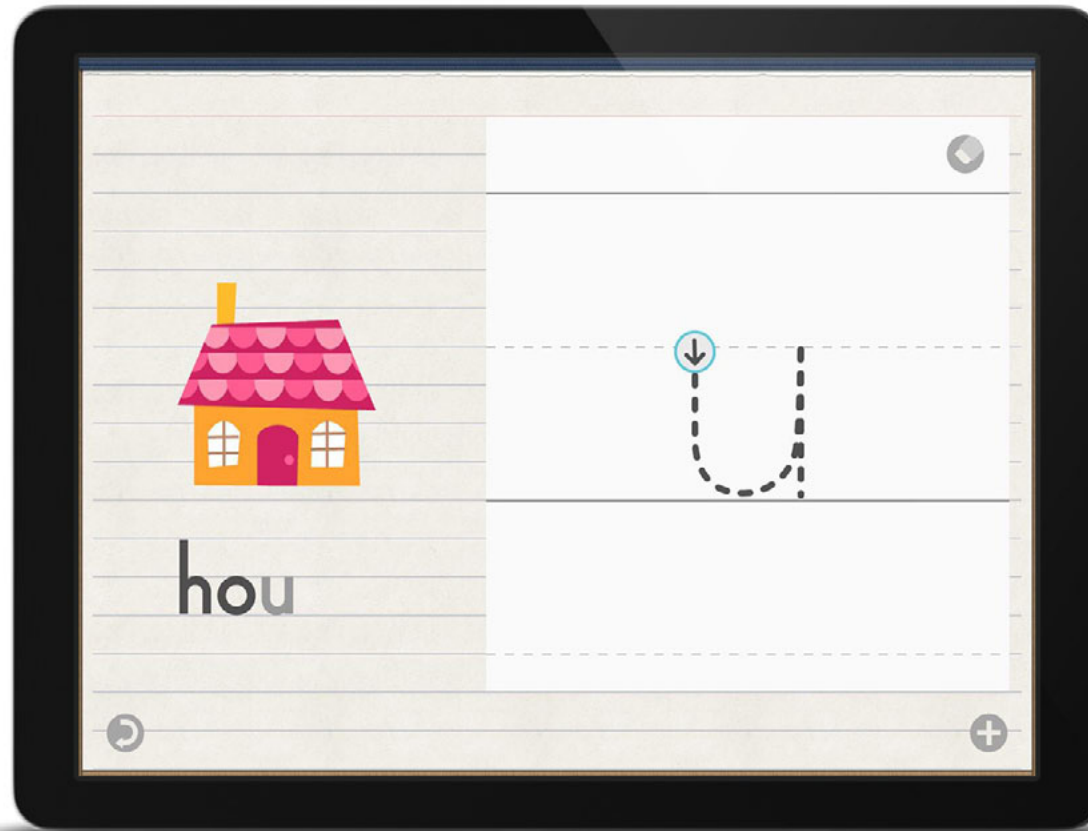

Create Phrases

Kids compose sentences by putting words in the right order.

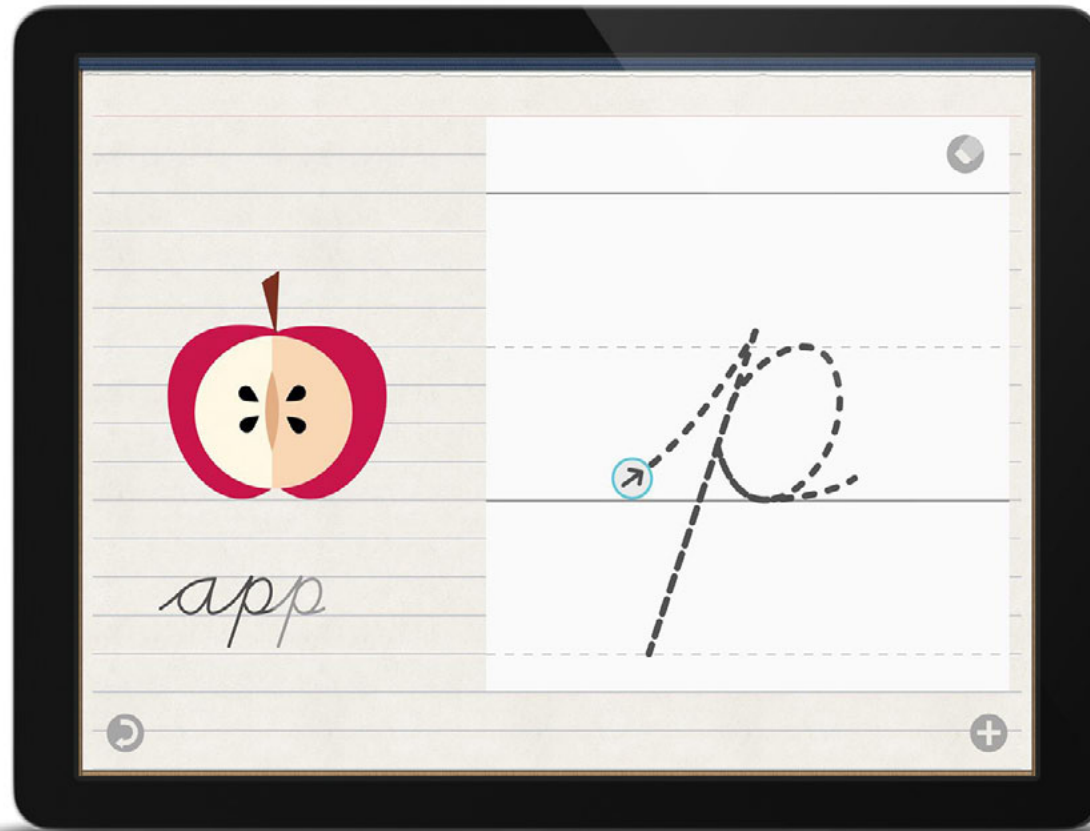

Write Letters

Kids learn the shape of each letter by tracing it over a guided path with their fingertip.

Write Words

Kids trace individual letters to write complete words.

Write Cursive

Kids go on to trace cursive letters in order to form complete words.
